Field Trip

This month, all of the second grade classes at Curry are reading The BFG by Roald Dahl. In a few weeks, **on February 8th**, we will be taking a field trip to see this exciting story performed as a play at the Mesa Arts Center.

Attached to this weeks newsletter you will find the permission slip for this field trip. Please complete it and return it as soon as possible. If you are "fingerprint cleared" and would like to be a field trip chaperone, please let me know. Thanks so much!

***Signing this permission slip will take the place of a Monday Memo.**

Book Order

Attached to this newsletter is the January book order. Please order online or return your child's order with cash only by **Friday, January 15th**. If you'd like to order online, **our class code is N8JPX**. Scholastic book orders are a great place to find on-level, inexpensive books for your child to enjoy reading at home!

Important Dates

We have a few days off coming up pretty quickly this quarter:

Mon 1/18 MLK Day

Mon 2/15 Presidents' Day

Class Update

Happy Monday! I hope everyone had a great weekend - our class had a great first week back together, despite all of the crazy rain we had to work around.

This week, we will begin an exciting Patricia Polacco author's study during reading a writing. I absolutely love her stories and illustrations, and my students always do, too. During math, we will finish up our graphing projects. We will also begin our study of the human body by learning about the circulatory system during science.

Thank you so much to parents who have already seen, signed, and returned their child's 2nd quarter report card! As always, please let me know if you have any questions or concerns. Thanks for everything you do!

Reading

In reading this week, we will recount stories and determine their central message or moral.

Writing

In writing this week, we will research Patricia Polacco and create a biography about her life.

Math

In math this week, we will survey our classmates and use the data collected to create tally charts, bar graphs, and pictographs.

Social Studies

In social studies this month, your child will identify countries in Asia and learn a brief history of the continent.

Science

In science this month, your child will identify and describe the parts of three body systems: circulatory, respiratory, and digestive.

Technology

In technology this month, students will save pictures to their desktop and upload them to Wixie and Edmodo.
