Empty Bowls

Curry is participating in the empty bowls fundraiser this year. All money raised goes toward feeding the hungry right here in Tempe, AZ.

Sometime this week, students will bring home the bowl that they made. If you are interested in purchasing your child's bowl, please send in \$1.00. Contact me if you have any questions. Thanks!

Fingerprint Clearance

Parents who are interested in accompanying our class on field trips must be fingerprint cleared by the district. Although we already have the chaperones we need for this field trip, we do have another one coming up in the spring. If you are interested in coming, now is the time to start the fingerprint clearance process! Call the district office at (480-) 730-7100. If you already have a fingerprint clearance card, you may turn in a copy to the front office. Thanks!

Important Dates

We have a few days off coming up pretty quickly this quarter:

Mon 2/8 BFG Field Trip

Mon 2/15 Presidents' Day

Class Update

Happy Tuesday! I hope you all enjoyed your 3-day weekend together and found some time to relax.

This week, we will continue our Patricia Polacco author's study during reading. In writing, students will be writing a biography about Patricia Polacco's life. During math, we will begin walk-to-math for 3rd quarter. Students may have another teacher for math depending on their NWEA math score from December. This system helps us ensure that all students are receiving instruction on their level. We will also continue our study of the human body by learning about the respiratory system during science.

As always, please let me know if you have any questions or concerns. Thanks for everything you do!

Reading

In reading this week, we will determine an author's purpose for writing a story.

Writing

In writing this week, we will research Patricia Polacco and create a biography about her life.

Math

In math this week, we will use equal groups, arrays, repeated addition, and skip counting to solve multiplication facts.

Social Studies

In social studies this month, your child will identify countries in Asia and learn a brief history of the continent.

Science

In science this month, your child will identify and describe the parts of three body systems: circulatory, respiratory, and digestive.

Technology

In technology this month, students will save pictures to their desktop and upload them to Wixie and Edmodo.
