Parent Teacher Conferences

Thank you so much to parents who were prompt in returning their conference forms last week! Attached you will find a confirmation of your child's conference time. For those who did not return a form, I had to guess. Please sign and return this form by tomorrow!

*This will take place of our normal Monday Memo this week.

Read Across America

Next Wednesday, 3/2, is Read Across America Day (Dr. Seuss's birthday!). To celebrate, Curry will have some spirit days during the week and a read-a-thon on Wednesday. **If there are any parents who would like to bring in their favorite picture book to share with the class on Wednesday morning, please let me know and we will schedule you in!** Thanks!

Important Dates

We have a few important dates coming up as we head towards the end of the quarter:

March 1-4 Early Release @ 1:00 pm
Parent Teacher Conferences

March 7-11 No School
Spring Break

Class Update

Happy Monday! I hope everyone enjoyed their weekend. Can you believe we only have two more weeks before the end of third quarter (and the start of Spring Break!)?

This week our class will continue learning about insect and will begin insect reports. It has been very fun to see students get excited about their insect as they learn cool, new facts. In reading, we will continue our author study on Robert Munsch. He is such a funny author, and a great storyteller! In walk-to-math, students will be learning about fractions at all different levels.

As always, please let me know if you have any questions or concerns. Thanks for everything you do!

Reading

In reading this week, we will describe how characters may respond differently to challenges based on their personality traits.

Writing

In writing this week, we will use our insect research to create a report that describes their appearance, habitat, diet, predators, etc.

Math

In math this week, we will identify and draw halves, thirds, and fourths.

Social Studies

In social studies this month, your child will identify countries in Asia and learn a brief history of the continent.

Science

In science this month, your child will identify and describe the parts of an insect, their defense features, and their life cycles.

Technology

In technology this month, students will practice their typing skills in Microsoft Word, and learn about other features of the application.
