Progress Reports

Attached to this newsletter is your child's 1st quarter progress report. Please look it over tonight, sign it, and have your child return it tomorrow. It will take the place of our normal Monday Memo. Please contact me if you have any questions or concerns.

Valentine's List

This Friday we will celebrate Valentine's Day with a pizza party. If you would like to send any treats to share during our celebration, we would love it! Please, **nothing homemade**. It is against district policy.

If your child would like to pass out valentines, please ensure they bring enough for every student in our class. I have included a class list on the back of this newsletter.

Important Dates

We have a few important dates coming up as we head towards the end of the quarter:

Mon 2/15 No School
Presidents Day

March 1-4 Early Release @ 1:00 pm
Parent Teacher Conferences

March 7-11 No School
Spring Break

Class Update

Happy Monday! I hope everyone enjoyed Super Bowl weekend. We have a VERY busy, but fun week ahead of us!

Today our class is heading to the Mesa Arts Center to watch the play version on *The BFG*. We absolutely loved reading the book together every day in January, and I'm sure we will love the play just as much! The next few days will be pretty normal. In reading, we have finished up our mystery unit and will be reading about penguins and life cycles this week. In writing, our class has an On Demand Writing Assessment that will help me see in which areas our writing still needs the most work.

On Friday, our class will celebrate Valentine's Day. Please see the note on the left about how our class will celebrate. As always, please let me know if you have any questions or concerns. Thanks for everything you do!

Reading

In reading this week, we will describe how characters may respond differently to challenges based on their personality traits.

Writing

In writing this week, we will create an opinion piece that includes reasons to support our opinions.

Math

In math this week, we will use equal shares, arrays, repeated subtraction, and skip counting to solve division facts.

Social Studies

In social studies this month, your child will identify countries in Asia and learn a brief history of the continent.

Science

In science this month, your child will identify and describe the parts of an insect, their defense features, and their life cycles.

Technology

In technology this month, students will practice their typing skills in Microsoft Word, and learn about other features of the application.
